Introducing the new Grouting System from CLC Grouters!

Featuring the following:

- * 24 HP Honda Motor with 18 GPM Hydraulic Pump and Bell Housing
- * 10 Gallon Hydraulic Reservoir with Oil Cooler
- * 6 Gallon Polyurethane Fuel Tank
- * 60 Gallon cone shaped hopper for complete drainage
- * Hydraulic driven mixing paddles
- * Quickly removable lid for easy maintenance and cleaning
- * Poly Tank will never rust or corrode
- * Translucent gallon readout for convenience

Grouter comes complete with an Armstrong Machine Company, Inc. 5" Hydraulic Driven High Performance Grout Pump- pumps anywhere from 4.8 GPM to 86.4 GPM. Features hammer unions for fast and easy tear down and cleaning.

*At maximum hydraulic pressure of 1,500 PSI you'll get max fluid pressure of 312 PSI.

*At maximum hydraulic pressure of 3,000 PSI you'll get max fluid pressure of 625 PSI.

Our entire system comes mounted on a single axle light weight trailer measuring at 4 feet wide by 8 feet long. The trailer features adjustable legs and is light enough to be pulled by hand. It's spacious enough to allow easy access to all components for maintenance purposes.

Please call or email for price and availability!! Custom work available upon request!
